

HANA RIN - INGREDIENT LIST

Disodium Laureth Sulfosuccinate (DLS)

- ✓ Not sulfate/ SLS. A cleansing agent/surfactant used in many 'greener' or natural products because it is effective yet extremely gentle to skin/hair even at high concentration. (e.g., Sebamed)

Acrylates Copolymer

- ✓ Stabilizer. Has smoothening and softening effects.

Sodium C14-16 Olefin Sulfonate

- ✓ Not sulfate. A safe surfactant to loosen buildup or dirt on hair for easy rinsing off. (e.g., Sebamed)

Lauryl Glucoside

- ✓ Sourced from palm kernel oil for cleansing without ripping off moisture.

Polyquaternium-7

- ✓ Hair detangler, anti-static properties for easy combing.

Lauramine Oxide

- ✓ Surfactant to remove dirt and deposits.

Zinc Pythione

- ✓ Common ingredients for preventing & treat seborrheic dermatitis (dandruff), psoriasis, acne. Anti-bacterial, anti-fungal, anti-microbial

Citric Acid

- ✓ Lower hair PH, antioxidant, reducing hair breakage and thinning.

Panthenol

- ✓ Derived from pantothenic acid (Vitamin B5). Moisturizing, soothing, anti-inflammation

Sodium Benzoate

- ✓ Preservative

Glyceryl Caprylate

- ✓ Anti-microbial properties with conditioning and moisturizing effects

Niacinamide

- ✓ Vitamin B3. Improves blood circulation to scalp, speeds up keratin synthesis.

Guar Hydroxypropyltrimonium Chloride

- ✓ Anti-static, conditioner

Biotin

- ✓ Vitamin B7. Support hair growth

Enterococcus Faecalis

- ✓ 1 trillion Patented EF-2001 Postbiotics accelerate the reproduction of hair derma papilla cells (HDPC), which in turn promote hair follicles to produce hair fiber. This heat-killed probiotic strain is verified to be safe even for individuals with weakened immune systems, pregnant women, lactating women. Also, no abnormal skin response/allergies reaction reported after usage.

AQUAXYL (Xylitylglucoside+ Anhydroxylitol+ Xylitol+ Glucose)

- ✓ A combination complex to retain water and limits water loss by improving barrier (ceramides).

Buty Avocado

- ✓ From avocado oil, regulated excessive sebum production.

Sodium Ascorbyl Phosphate (SAP)

- ✓ Water soluble, gentle Vitamin C

Tocopheryl Acetate & Tocopherol

- ✓ Vitamin E. Fights free radicals, reduces oxidative stress to the scalp, and protects the skin and hair from damage due to sun exposure.

Pyridoxine HCL

- ✓ Vitamin B6. makes the hair follicles get enough keratin and melanin, which promotes hair growth and hair renewal.

1,2-Hexanediol

- ✓ Gentle preservative alternative to parabens, phthalates.

Natural Black food

- ✓ ***Hordeum Vulgare Extract***

Barley seed extract. Rich in beta-glucan oligosaccharide, nourishes beneficial bacteria and improves microbiota balance.

- ✓ ***Glycine Max (Soybean) Seed Extract***

One of the smallest amino acids. Cause keratinization to occur in hair follicles.

- ✓ ***Lepidium Meyenni Root Extract***

Maca root powder. Stimulate hair growth by increasing cell multiplication in hair bulb.

- ✓ ***Cuttlefish extract***

Melanin pigments contained in the ink have significant protection to hair cuticle against UV radiation and damage due to chemical treatments, such as permanent waves, straightening, coloring, heat styling, etc.

- ✓ ***Sesame Seed Extract***

- ✓ ***Nigella Sativa (Black seed)***

- ✓ ***Allium Sativum (Garlic) Bulb Extract***

- ✓ ***Rubus Fruticosus Fruit (Blackberry)***
